To the Brookhaven Academy Family:

Education requires accountability for assurance that a school is being run efficiently with appropriate subjects addressed, and Brookhaven Academy uses the SAIS (Southern Association of Independent Schools) for this purpose. The SAIS has designed and implemented a significant program of accreditation to assist member schools as they develop and promote high quality education. This method is based on a school's stated mission and its own unique approach to thorough and vigorous self-examination.

A school that is able to achieve accreditation demonstrates a commitment to a process that requires the school to meet a set of rigorous standards to engage in a program of continuous school improvement; and to demonstrate quality assurance to its stakeholders through self-evaluation and peer review.

SAIS accredited member schools are part of an international network of accredited schools that have demonstrated success in educating children. As such, SAIS accreditation is recognized throughout the world as a symbol of quality in education for students and teachers.

Brookhaven Academy recently completed a 5-year comprehensive SAIS review of its mission in regards to standards and improvement plans. The 2018 School Improvement Plan can be viewed on the Brookhaven Academy website, and below is a listing of accreditation results.

ACCREDITATION RESULTS:

The SAIS team would like to thank all members of the Brookhaven Academy community for their hospitality and thorough professionalism before and during our visit. Special thanks are due to Page Nelson, the BA accreditation coordinator, whose outstanding work and dedication to this process made our study and visit an efficient and rewarding process. It is our hope that our work can be of great use to Brookhaven Academy in their self-study.

Standards Compliance: The school is in compliance with all standards of the SAIS accreditation process as verified by documentation, observations, and interviews.

Self-Study Quality: The self-study conducted by the school meets the standard of quality and thoroughness required by the SAIS accreditation process and answers the four critical questions as outlined in the Guidebook.

Recommendation: The school is unanimously recommended for accreditation.

Thank you for your support in providing a quality education in a Christian environment.
