

## Download PIKMYKID K3-6<sup>th</sup> Grade

In our ongoing efforts to enhance your children's safety, we have decided to continue using the **PikMyKid Dismissal Application**. Throughout the country, it has been proven to simplify dismissal, reduce traffic congestion, and most importantly improve overall safety. The unique features of PikMyKid allow you as the parent to easily change pick up modes and quickly delegate to an alternate individual for pickup. The app allows you to be in full control of your child's dismissal, while giving the school complete information regarding dismissal and the ability to acknowledge every change.

For more information, please review the following link [www.pikmykid.com/faq](http://www.pikmykid.com/faq)

Please visit the appropriate App Store and download the PikMyKid app.

iOS

Android

As you register in the app, we will send you an ID number during the registration process. You will be the primary parent for your child. You can delegate alternate individuals, as they must have the app as well so we can send a matching number to their phone for the school to validate the correct person is picking up the proper child.

If you are part of a carpool, each child's number will be sent to the phone for validation. You will be asked for the necessary information upon registration (Name, Grade, Teacher, Dismissal Mode, and Car Tag).

Place the PikMyKid Car Tag in your front window. You will see a PikMyKid Stop Sign as you enter the school property. Then, the Announce Button on your PikMyKid app will turn Green alerting us you are in line to pick up your child. This will help sequence the children in the same order as you have entered the campus.
